What is a Widget?

A widget is an interactive element that can be embedded on a website. It allows the presentation of content, such as playlists, in a defined layout with customizable appearance.

To add a widget:

- Open the horizontal menu.
- Hover over Websites and select Widgets.
- Click Add new widget.

Widget Creation Form

In the form, you need to:

- Enter a name – the widget identifier.
- Select the widget type – define the widget's function.
- Specify the website where the widget will be placed.

After completing the form, the user is redirected to the widget management menu.

Add new widget

Widget type	Player with video list
Widget website	Testowe/Test wersja B
Widget name	Test widget

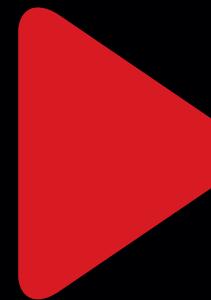

* - required field

Widgets list

Add

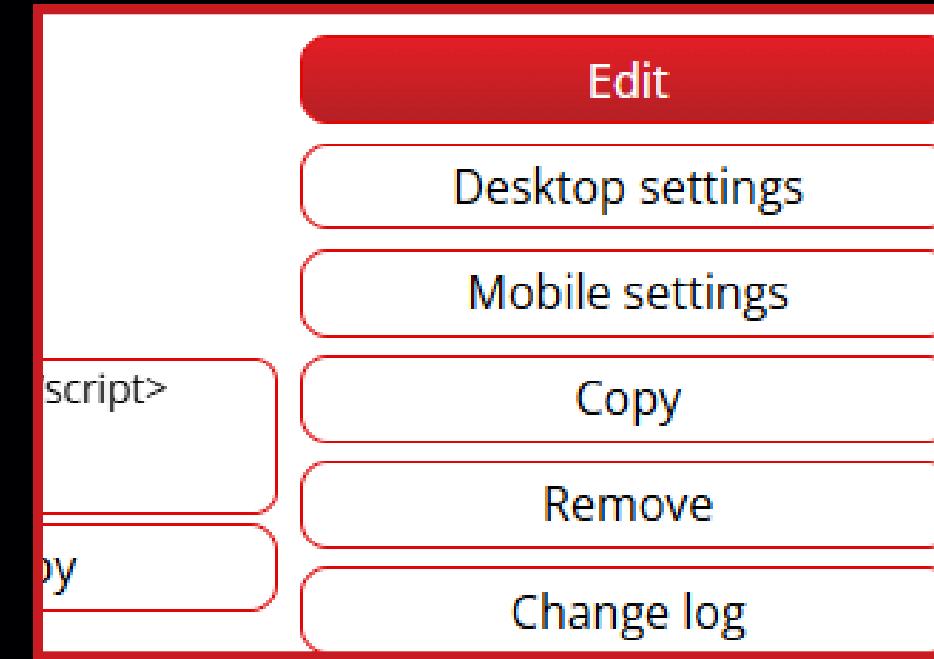

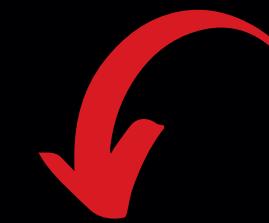

+ Filtering and Sorting

Managing Widgets

The management panel allows you to edit or delete widgets.

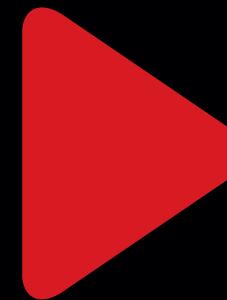

Editing options include:

- Changing the widget's name and assigned website.
- Selecting a playlist – the key element defining the widget's content.
- Adjusting the widget's appearance.

Widget name

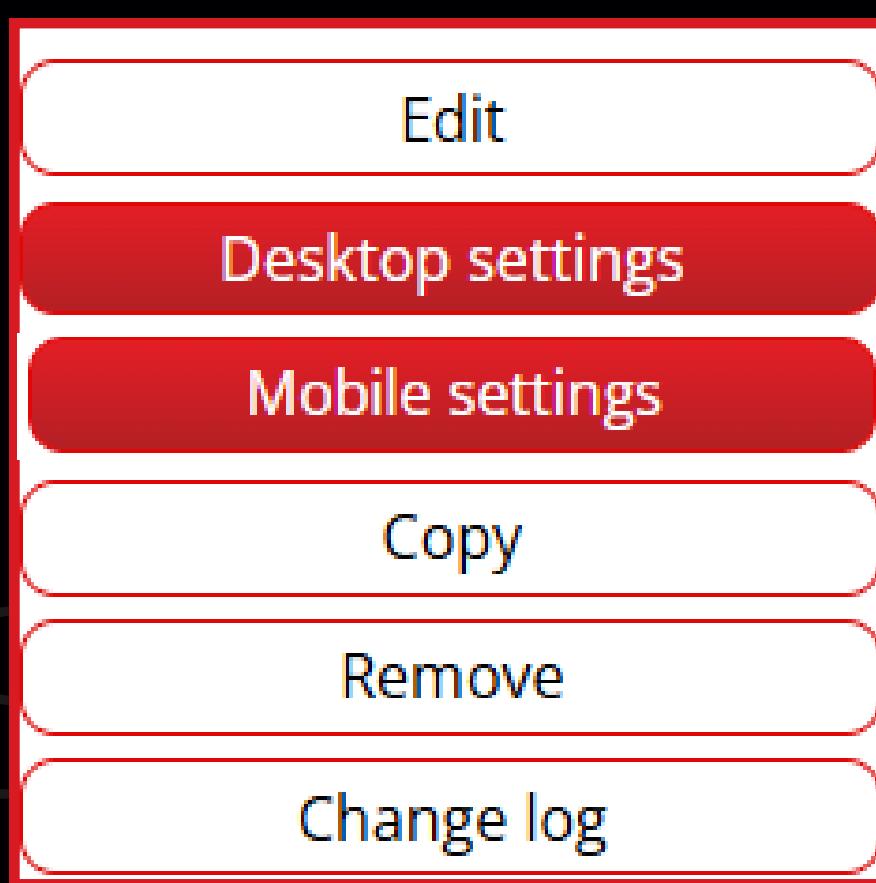

Widget website

Widget playlist

Desktop and Mobile Settings

The Desktop and Mobile tabs allow optimization of widget display on different devices.

default settings for widget **Tescik** for website **testowawa julki**

Save Cancel

Settings are empty. Default settings was taken

Player aspect ratio	Player aspect ratio on page 16:9

Default volume when hovering over cursor	<input checked="" type="checkbox"/> 2 %
Sticky/miniature player options	
Pause player if not visible	<input type="checkbox"/>
Pause player if not visible while ad is playing too	<input type="checkbox"/>

Generating Widget Code

Once the widget settings are configured, an embed code will appear in the widget menu, ready to be inserted into the website.

Widget name	Tescik	Edit
Widget website	POLAND / Onnetwork Ads Stuff / testowawa julki	Desktop settings
ID	2097	Mobile settings
Widget type	Player with scroll list below	Copy
Widget playlist	tesciki	Remove
Widgets embed code	<pre><div><script type="text/javascript" src="https://video.onnetwork.tv/widgets/widget_scrolllist.php?widget=2097"></script></div></pre>	Change log
